

DS-3E1726-SI-16F8T2X Smart Gigabit Pro-Series

Smart managed switches are developed by Hikvision, featuring easy management and maintenance. You can easily deploy, monitor and expand your surveillance system anytime and anywhere with our software platforms. You can view the network topology, monitor the health of the network and receive device alarms in real time, which greatly reduces the cost of network operation and maintenance.

- 8× Gigabit RJ45 port,16× Gigabit fiber optical port,2× 10G fiber optical port
- Support Port Security, IP Source Guard
- Support Energy Saving mode with user-configurable plans
- Support IEEE 802.1Q VLAN tagging
- Support STP/RSTP/ERPS loop prevention with storm control
- Support cable detection to locate failure
- Support SNMP, QoS, DHCP snooping, and ARP anti-spoofing
- Support 6 kV surge protection

Specification

General			
Shell	Metal material		
Net Weight	2.81 kg (6.19 lb)		
Gross Weight	3.73 kg (8.22 lb)		
Dimensions (W × H × D)	440.0 mm × 44.0 mm × 220.8 mm (17.32" × 1.73" × 8.69")		
Operating Temperature	0 °C to 45 °C (0 °F to 113 °F)		
Storage Temperature	-40 °C to 85 °C (-40 °F to 185 °F)		
Operating Humidity	5% to 95% (no condensation)		
Relative Humidity	5% to 95% (no condensation)		
Power Supply	100 to 240 V AC, 50/60 Hz, Max. 2 A		
Max. Power Consumption	40 W		
Power Consumption in Idle	7 W		
Surge Protection	6 kV		
Installation Mode	Rack (equipped with mounting ears)		
Network Parameters			
Ports	8 × Gigabit RJ45 port,16 × Gigabit fiber optical port,2 × 10G fiber optical port		
MAC Address Table	16 K		
Switching Capacity	88 Gbps		
Packet Forwarding Rate	65.47 Mpps		
Internal Cache	8.4 Mbits		
Software Function			
	Ports 1 to 26: port isolation mode to improve network security		
Port Isolation	Ports in an isolation group cannot communicate with each other, but they can		
	communicate with ports outside the isolation group.		
	Link aggregation is used to aggregate multiple physical ports to form a logical port for		
Link Aggregation	load balancing, bandwidth expansion, and port protection.		
Link Aggregation	Support static link aggregation.		
	Support 8 aggregation group(s).		
	QoS is used to allocate bandwidth to different services so as to provide end-to-end		
QoS	service quality assurance.		
Q0S	Support port-based priority configuration.		
	Support SP, WRR priority schedule mode.		
	Loop prevention is used to prevent the switching network from forming loops, which		
	will seriously affect network communication. Disabled by default.		
Loop Prevention	Support 802.1D STP.		
	Support 802.1w RSTP.		
	Support G.8032 ERPS.		
	VLAN is used for network scale planning and network health improvement.		
	Support 802.1Q.		
VLAN	Configurable VLAN ID from 1-4094.		
	Support Trunk, Access port mode.		
	Support Max. 1024 VLAN.		

	Support and click activation and remote management via Lik Partner Pro Expetiens
	Support one-click activation and remote management via Hik-Partner Pro. Functions
	supported:
	1. Display the port rate.
НРР	2. Display the port bandwidth utilization rate.
	3. Display topology information.
	4. Display the alarm status.
	5. Restart ports and devices.
	6. Remotely upgrade the device.
	Support device management via web.
	Support DHCP Client. Enabled by default for dynamic assignment of management IP
	addresses.
	Support Super IP, which is a fixed IP address (10.180.190.200) for direct access.
	Support management via Hik-Central Pro.
System Maintenance	Support remote management via Hik-Partner Pro.
	Support cable detection. Abnormal open circuits and short circuits as well as network
	cable length can be detected.
	Supports 802.1ab LLDP for peer device discovery.
	Support SNMP v1/v2c for third-party management platform access.
	Support port mirroring for fault locating.
D + D + + 11 '11'	Port rate-limiting is used for port bandwidth adjustment to prevent network
Port Rate-Limiting	congestion.
	Storm control is used to prevent switch ports from being blocked by broadcast or
	multicast storms in the LAN, which may affect network communication.
Storm Control	Support port rate limiting based on broadcast, multicast, and unknown unicast
	packets.
	DHCP Snooping can prevent unauthorized connections to DHCP servers from
DHCP Snooping	disrupting the network and affecting normal network communication, and only allow
· -	DHCP packets from trusted ports to pass through. Disabled by default.
	Port security strategy.
ACL	Support up to 32 ACL entries.
	Support up to 64 configuration rules under all ACL entries.
	IPSG can control the security of port access device.
IPSG	Support port, MAC, IP binding.
11 30	Support 64 security entries.
DDM (Digital Diagnostic	Support real-time monitoring of key parameters in optical modules, such as operating
Monitoring)	temperature, operating voltage, operating current, and Rx and Tx optical power.
Approval	the property and the analysis powers
	CE-EMC (EN 55032: 2015+A11: 2020, EN IEC 61000-3-2: 2019, EN 61000-3-3: 2013+A1
EMC	2019, EN 50130-4: 2011+A1: 2014, EN 55035: 2017+A11: 2020)
	CB (AMD1:2009, AMD2:2013, IEC 62368-1: 2014 (Second Edition)), CE-LVD (EN 62368-
Safety	1: 2014+A11: 2017)
Chamistu.	·
Chemistry	CE-RoHS (2011/65/EU), WEEE (2012/19/EU), Reach (Regulation (EC) No.1907/2006)

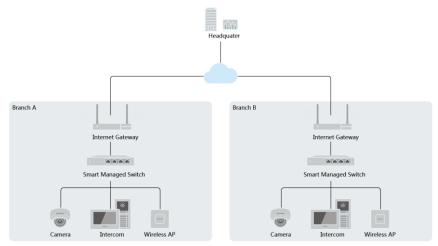

Available Model

DS-3E1726-SI-16F8T2X

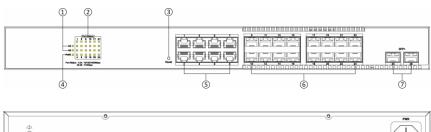

Typical Application

Physical Interface

Front Panel

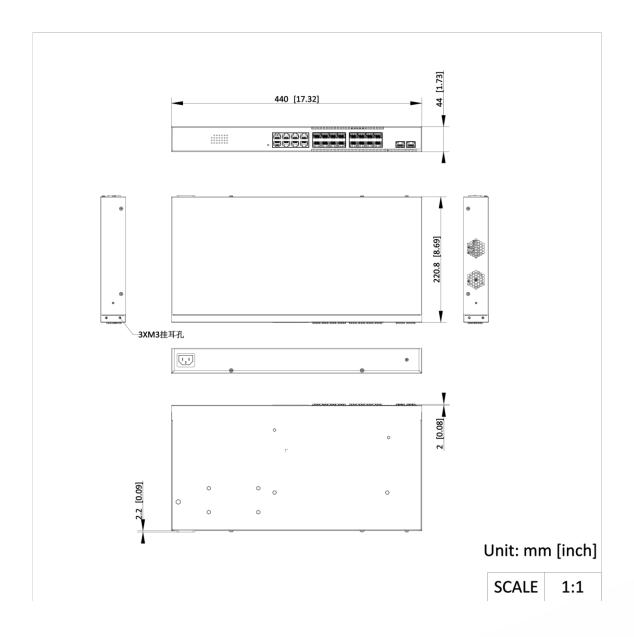

Rear Panel	Ŭ	Ü	<u> </u>	Ü

	8			9

No.	Indicator/Port	Description		
	10 Gigabit SFP+ Fiber Optical	 Solid on: The 10 gigabit SFP+ fiber optical port is connected. Flashing: The 10 gigabit SFP+ fiber optical port is transmitting data. 		
1	Port Indicator	 Unlit: The 10 gigabit SFP+ fiber optical port is disconnected or connection is abnormal. 		
2	Port Status Indicator	 Solid on: The port is connected. Flashing: The port is transmitting data. Unlit: The port is disconnected or connection is abnormal. 		
3	Reset Button	Press and hold the reset button for more than 5 seconds to restore all the configurations of the switch to default settings.		
4	PWR Indicator	Solid on: The switch is powered on normally.Unlit: No power supply is connected or power supply is abnormal.		
(5)	Gigabit RJ45 Port	Used for connection to another device via a network cable.		
6	Gigabit SFP Fiber Optical Port	Used for connection to another device via an optical fiber when plugged into with an SFP optical module.		
7	10 Gigabit SFP+ Fiber Optical Port	Used for connection to another device via an optical fiber when plugged into with an SFP/SFP+ optical module.		
8	Grounding Terminal	Used for connection to the grounding cable to protect the switch from lightning.		
9	Power Supply	Use the attached AC power cord to connect the switch to a power socket.
