

**DS-2CD37167G3T-LIZSU/SL(PTRZ)(Y)**  
**16 MP Dual Illumination Strobe Light and Audible Warning Motorized**  
**Varifocal Dome Network Camera**

## AcuSense

Hikvision has been dedicated to develop products with security since established. Hikvision always follows security by design principle and has adopted many methods of security technologies into our product development lifecycle, including terminal security, data security, application security, network security, and privacy protection. In the meantime, the security technologies used by Hikvision are all in compliance with local applicable laws and safety regulations. These security measures could enhance product's cyber security protection capability and protect your devices as well as your data from malicious cyber attacks.

- Motorized Pan, Tilt, Rotate, Zoom for easy installation and maintenance
- UHD: 16 MP Ultra High Definition
- HIK AI-ISP for excellent noise reduction effect
- 24/7 colorful imaging
- IR light & White light & Smart Hybrid Light modes
- Clear imaging against strong back light due to 130 dB WDR technology
- Clear two-way audio with dual-array mic
- Audio and alarm interface available
- Active strobe light and audio alarm to warn intruders off (-SL)
- Water and dust resistant (IP66) and vandal resistant (IK10)

## ▪ Specification

| Camera                 |                                                                                                                                                                                                                                                                          |

## ▪ Typical Application

Hikvision products are classified into three levels according to their anti-corrosion performance. Refer to the following description to choose for your using environment.

This model has NO SPECIFIC PROTECTION.

| Level                  | Description                                                                                                                                                                                                                                            |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Top-level protection   | Hikvision products at this level are equipped for use in areas where professional anti-corrosion protection is a must. Typical application scenarios include coastlines, docks, chemical plants, and more.                                             |
| Moderate protection    | Hikvision products at this level are equipped for use in areas with moderate anti-corrosion demands. Typical application scenarios include coastal areas about 2 kilometers (1.24 miles) away from coastlines, as well as areas affected by acid rain. |
| No specific protection | Hikvision products at this level are equipped for use in areas where no specific anti-corrosion protection is needed.                                                                                                                                  |
