Foreword

The purpose of this section is to ensure that users can use the product correctly through this manual to avoid danger or property damage during operation. Before using this product, please read the product manual carefully and keep it properly for future reference.

Data acquisition

Visit the company's official website (www.hikvision.com) to obtain instructions, application tools and development materials.

Overview

This manual is applicable to wall-mounted speakers in broadcasting systems

This manual describes the introduction of wall-mounted speakers and guides you through the installation and use of this product.

Notation convention

Descriptions of the symbols that appear in the document are as follows.

Symbol	Instruction Manual
 Danger	Dangerous text indicates a potentially high risk that, if not avoided, may result in major casualties.
 Look out	Attention text reminds the user of some important operations or to prevent potential injuries and property losses. If not avoided, it may cause injury, equipment damage, or business interruption.
 Instructions	Explanatory text, which represents supplements and explanations to the text.

Precautions for safe use

- During installation and use, various electrical safety regulations of the country and region of use must be strictly followed.
- Please do not open the inside of the machine at will, and the internal wiring cannot be changed.
- Do not connect the 100V speaker to a constant voltage 100V main power supply.

Look out

- Please do not let objects fall onto the device, and try to avoid places with strong magnetic field interference.
- Equipment suitable for indoor use must not be installed exposed to rain or very wet places.
- Please keep all the original packaging materials of the equipment properly, so that in case of any problems, the all-in-one machine can be packaged and sent to the agent or returned to the manufacturer for processing. Our company does not assume any responsibility for accidental damage during transportation caused by non original packaging materials.

Instructions

- Requirements for installation and maintenance personnel
Having the qualification certificate or experience to engage in the installation and maintenance of weak current systems, and having the qualification to engage in related work, in addition, must also have the following knowledge and operational skills
-Basic knowledge and installation skills in weak current systems and their components.
-Basic knowledge and operational skills in low-voltage wiring and low-voltage electronic wiring
Device powered by Safety Extra-Low Voltage (SELV): The power source should meet limited power source or PS2 requirements according to IEC 60950-1 or IEC 62368-1 standard.

CAUTION:

Never remove the cover, because otherwise there may be a risk of electric shock. There are no user serviceable parts inside. Have repairs carried out only by qualified service personnel.

The exclamation mark within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance instructions.

Chapter 1 Product Introduction

1.1 Product Introduction

Ceiling speakers are suitable for broadcast sound reinforcement and background music. Mainly used in: indoor corridors, supermarkets and other places. Suitable for indoor use.

1.2 Packing list

When you purchase the device, please first check whether the product packaging and appearance are obviously damaged, then open the product outer packaging box, refer to the packing list, and check whether the accessories that come with the product are complete. After confirmation, you can install and use the device.

Table 1-1, Packing List

NAME	QUANTITY
Manual	1
Device	1

1.3 Technical Parameters

Rated Power	10W/20W
Rated Voltage	100V
Sensitivity	92dB $\pm$ 3dB
Maximum sound pressure	106dB
Frequency Response	80Hz-20KHz
Input Interface	InterfaceCard
Terminal Color	Black, white, red
Speaker Unit	4"×1+High note*1
Product Size	172x260x113mm
