4 MP Smart Hybrid Light Motorized Varifocal Dome Polymer Anti-Corrosion Network Cam

Hikvision has been dedicated to develop products with security since established. Hikvision always follows security by design principle and has adopted many methods of security technologies into our product development lifecycle, including terminal security, data security, application security, network security, and privacy protection. In the meantime, the security technologies used by Hikvision are all in compliance with local applicable laws and safety regulations. These security measures could enhance product's cyber security protection capability and protect your devices as well as your data from malicious cyber attacks.

- 24/7 colorful imaging via ColorVu technology
- IR light, White light, Smart Hybrid Light modes
- Clear imaging against strong back light due to 130 dB WDR technology
- -SU models: Clear two-way audio with arrayed dual-microphone
- Water and dust resistant (IP68) and vandal resistant (IK10)
- -S and -SU models: Audio and alarminterface available
- Anti-corrosion polymer enclosure, protecting cameras to be used in corrosive environments, providing reliability and longevity compared to standard cameras

Typical Application

Hikvision products are classified into three levels according to their anti-corrosion performance. Refer to the following description to choose for your using environment.

This model has TOP-LEVEL PROTECTION.

Level	Description
	Hikvision products at this level are equipped for use in
Top-level protection	areas where professional anti-corrosion protection is a
Top-rever protection	must. Typical application scenarios include coastlines,
	docks, chemical plants, and more.
	Hikvision products at this level are equipped for use in
	areas with moderate anti-corrosion demands. Typical
Moderate protection	application scenarios include coastal areas about 2
	kilometers (1.24 miles) away from coastlines, as well as
	areas affected by acid rain.
lo specific protection	Hikvision products at this level are equipped for use in
	areas where no specific anti-corrosion protection is needed.
