

iDS-2CD7A46G2/P-IZHS(Y)/4G 4MP 4G DeepinView ANPR Moto Varifocal Bullet Camera

Hikvision has been dedicated to develop products with security since established.

Hikvision always follows security by design principle and has adopted many methods of security technologies into our product development lifecycle, including terminal security, data security, application security, network security, and privacy protection. In the meantime, the security technologies used by Hikvision are all in compliance with local applicable laws and safety regulations. These security measures could enhance product's cyber security protection capability and protect your devices as well as your data from malicious cyber attacks.

- High quality imaging with 4 MP resolution
- Excellent low-light performance via DarkFighter 2.0 technology
- Clear imaging against strong back light due to 150 dB AWDR technology
- Efficient H.265+ compression technology to save bandwidth and storage
- 5 streams to meet a wide variety of applications
- Water and dust resistant (IP67), vandal proof (IK10) and corrosion resistant (NEMA 4X, optional)
- High frame rate, up to 2MP@120fps and 4MP@60fps
- Built-in heater to ensure clear image under rainy or snowy weather
- Built-in G-sensor for vibration detection
- Built-in power meter for historical power statistics
- License plate recognition and vehicle attribution recognition

Function

Perimeter Protection

With embedded deep learning based target detection and classification algorithms, the camera carries out the duty of perimeter protection, monitoring the actions of line crossing, intrusion, region entrance, and region exiting. The algorithms greatly filter out the mistaken alarm caused by the interference of leafs, lights, animal, flag, etc.

Road Traffic and Vehicle Detection

With embedded deep learning based license plate capture and recognition algorithms, the camera alone can achieve plate capture and recognition. The algorithm enjoys the high recognition accuracy of common plates and complex-structured plates, which is a great step forward comparing to traditional algorithms. Blocklist and allowlist are available for plate categorization and separate alarm triggering.

	output impedance: 100Ω , interface type: non-equilibrium, mono sound				
RS-485	-Y: 1 RS-485 (Half duplex, HIKVISION, Pelco-P, Pelco-D, self-adaptive)				
Reset Key	Yes				
Power Output	-Y: 12 VDC, max. 100 mA				
Wiegand	-Y: 1 Wiegand (CardID 26bit, SHA-1 26bit, Hik 34bit, NEWG 72 bit)				
Event					
	Motion detection (support alarm triggering by specified target types (human and				
	vehicle)),video tampering alarm,exception (network disconnected, IP address conflict,				
Basic Event	illegal login, HDD full, HDD error), glass break detection, scream detection, guns hot and				
	explosion sound detection, crying sound detection				
	Line crossing detection, intrusion detection, region entrance detection, region exiting				
Smart Event	detection				
	Upload to FTP/NAS/memory card,notify surveillance center, send email, trigger alarm				
Linkage	output,trigger recording,trigger capture,audible warning				
Deep Learning Function					
	Line crossing, intrusion, region entrance, region exiting				
Perimeter Protection	Support alarm triggering by specified target types (human and vehicle)				
. c. meter i rotection	Support combined event alarm triggering				
	Intrusion detection, line crossing detection, region entrance detection, region exiting				
Metadata	detection,road traffic				
	Smart Function:				
	Support license plate recognition of vehicles and motorcycles (only in checkpoint				
	scenario)				
	Support vehicle attribute detection, including vehicle type, color, brand, driving				
	direction, etc.				
	Support vehicle and non-vehicle counting				
	Blocklist and allowlist: up to 10,000 records				
	LPR Countries/Regions:				
Road Traffic and Vehicle	4 areas (Europe, Middle East, Asia-Pacific, Africa) and more than 124 countries/region				
Detection	Accuracy (Under recommended installation and lighting conditions):				
	License plate recognition rate ≥98%				
	Capture rate ≥99%				
	Driving direction accuracy rate ≥98%				
	Vehicle Capture Speed:				
	Front installation in checkpoint scenario: up to 120 km/h				
	Side installation: up to 80 km/h				
	Capture Mode: License Plate and Vehicle Mode, Vehicle Priority Mode				

	Support distant view mode and close view mode			
	Distant view mode: support status detection on up to 40 parking spaces, parking			
Parking Management	duration detection, and vacant parking space alarm			
	Close view mode: support status detection on up to 4 parking spaces, license plate			
	recognition, parking timeout alarm, and vacant parking space alarm

Automotive and Railway	-Y:EN50121-4
Other	PVC FREE

Typical Application

Hikvision products are classified into three levels according to their anti-corrosion performance. Refer to the following description to choose for your using environment.

With -Y model: This model has MODERATE PROTECTION. Without -Y model: This model has NO SPECIFIC PROTECTION.

Level	Description	
	Hikvision products at this level are equipped for use in	
Top-level protection	areas where professional anti-corrosion protection is a	
Top-rever protection	must. Typical application scenarios include coastlines,	
	docks, chemical plants, and more.	
	Hikvision products at this level are equipped for use in	
	areas with moderate anti-corrosion demands. Typical	
Moderate protection	application scenarios include coastal areas about 2	
	kilometers (1.24 miles) away from coastlines, as well as	
	areas affected by acid rain.	
No specific protection	Hikvision products at this level are equipped for use in	
No specific protection	areas where no specific anti-corrosion protection is needed.
