High-Rise Littering Detection Camera V5.5.830 Release Note

Firmware Basic Information	Firmware Version:	V5.5.830_250318 V5.5.830_250709

■ New Features

1. Newly release High-Rise Littering Detection Cameras: iDS-2CD8A87G0P/PW(6mm).

2. Support Original mode and Panorama mode.
   In original mode, it has two channels. In panorama mode, two images are stitched together and output through a single channel.

3. Object thrown from building detection is supported in panorama mode. It performs detection and tracking separately on the upper and lower stitched images, and triggers alarms independently.

4. Support floor and unit configuration, and alarm messages and alarm images support floor and unit display.

5. Support Manual Correction for image stitching.
   You can fine-tune the stitching effect by adjusting the horizontal and vertical positions of the lower live view image relative to the upper image.

■ Modify Features

V5.5.830_250709:

Fixed some known issues.

Customer Impact and Recommended Action
