

Network Camera-V5.8.35 Release Note-E9&E10 (2026-08-27)

Firmware Basic Information	Firmware version:	V5.8.35 build260827
----------------------------	-------------------	---------------------

New Features

Modify Function

1. Fix the issue where the camera SDK protocol cannot be reconnected after offline connection.

Customer Impact and Recommended Action

This update refers to function/compatibility improvement and will take effect automatically after the Date of Change. We are very sorry for any inconvenience of use-habit changes caused by this action.

For any questions and request for this firmware, please contact our local technical support team.

Remarks:

- Hikvision reserves the right to change, alter or withdraw the above notification without prior notice.
- Product design and specifications are subject to change without prior notice.
- The Hikvision firmware may contain errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.
- Hikvision is not liable for any typing or printing errors.
