

Network Video Recorder

Version: V4.74.200 build230522

Release Note

Firmware Basic Information	Firmware Version:	V4.74.200 build230522
	SDK Version:	V6.1.9.46
	Play Library:	V7.3.8.45
	Web component:	V4.0.1 build 230414
	OpenSDK Version:	V2.7.0 build 201014

Reason of Upgrade

Fix known defects and optimize product performance.

New Features

1. Search for third-party devices across the network and add by Onvif

- 1) Support search IP camera of TP-LINK, Dahua, Uniview, Topsee, Tiandy, XM etc.
- 2) Search for third-party devices whose IP addresses do not belong to the current LAN segment, after searching, add to NVR via Onvif.
- 3) In Local UI, support configure IP segment across network segments to be searched, a maximum of two IP segment can be configured.

2. H265 is enabled for third-party camera by default

Third party IP camera which support H265 will be enable H265 when add by Onvif protocol at the first time.

3. Plug and play

Support the configuration of whether to automatically add newly detected camera on the same LAN;

If the “Auto Add Network Camera” is enable, the new camera will be automatically added to the NVR. After the addition is complete, the user will be prompted by a 5-second pop-up.

If the “Auto Add Network Camera” is disable, this function is not use.

The screenshot shows the Hikvision NVR web interface. The left sidebar contains navigation options: System, Network, Camera, Display, Privacy Mask, Event, Record, and Face Picture Library. The main area is divided into two sections: 'Added Device List' and 'Online Device List'.

In the 'Added Device List' section, a table lists cameras with columns: Camera No., IP Address, Camera Name, and Status. The 'More' menu is open, showing options like 'H.265 Auto Switch Configuration', 'Upgrade', 'Export', 'Import', 'Protocol', 'Camera Activation Password Settings', 'Batch Configuration', and 'Plug-and-Play' (highlighted with a red box).

The 'Online Device List' section shows a table with columns: No., IP Address, Status, Operation, Protocol, Management Port, Device Model, and Serial No. The status of the cameras is indicated by green (online) or yellow (offline) triangles.

Enable:

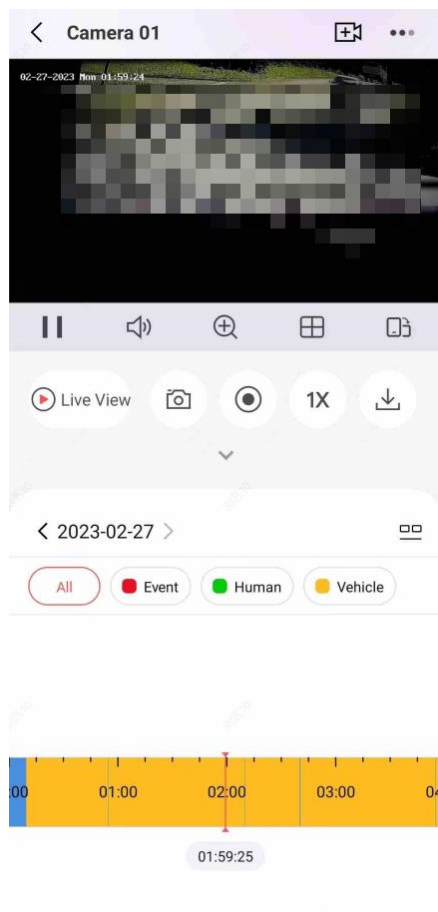

The screenshot shows the Hikvision NVR web interface. The left sidebar contains navigation options: System, Network, Camera, Display, Privacy Mask, Event, Record, and Face Picture Library. The main area is divided into two sections: 'Added Device List' and 'Online Device List'.

In the 'Added Device List' section, a message 'Automatically added 1 camera(s)' is displayed. Below it, a table lists cameras with columns: Camera No., IP Address, Camera Name, Status, Protocol, Operation, and Security.
