Network Camera-V5.7.13 Release Note-E10 (2023-08-15)

Firmware Basic Information	Firmware version:	V5.7.13 build230815

New Features

New products:

1. 1 series 4MP, fixed-focus Smart Hybrid Light Cameras. Based on the original ColorVu cameras, add a new IR light to enhance product competitiveness with not much increase in cost. Default supplement light mode is white light and the default exposure time is 1/12.

2. 1XX3 4MP, fixed-focus cameras with live guard (/SL).

Note

This version is only for new products

Modify Function

Customer Impact and Recommended Action

This update refers to function/compatibility improvement and will take effect automatically after the Date of Change. We are very sorry for any inconvenience of use-habit changes caused by this action.

For any questions and request for this firmware, please contact our local technical support team.

Remarks:

- Hikvision reserves the right to change, alter or withdraw the above notification without prior notice.
- Product design and specifications are subject to change without prior notice.
- The Hikvision firmware may contain errors known as errata which may cause the product to deviate from

published specifications. Current characterized errata are available on request.

- Hikvision is not liable for any typing or printing errors.
