

Network Camera-V5.7.21_SP2 Release Note-E8 (2023-12-13)

Firmware Basic Information

Firmware version:

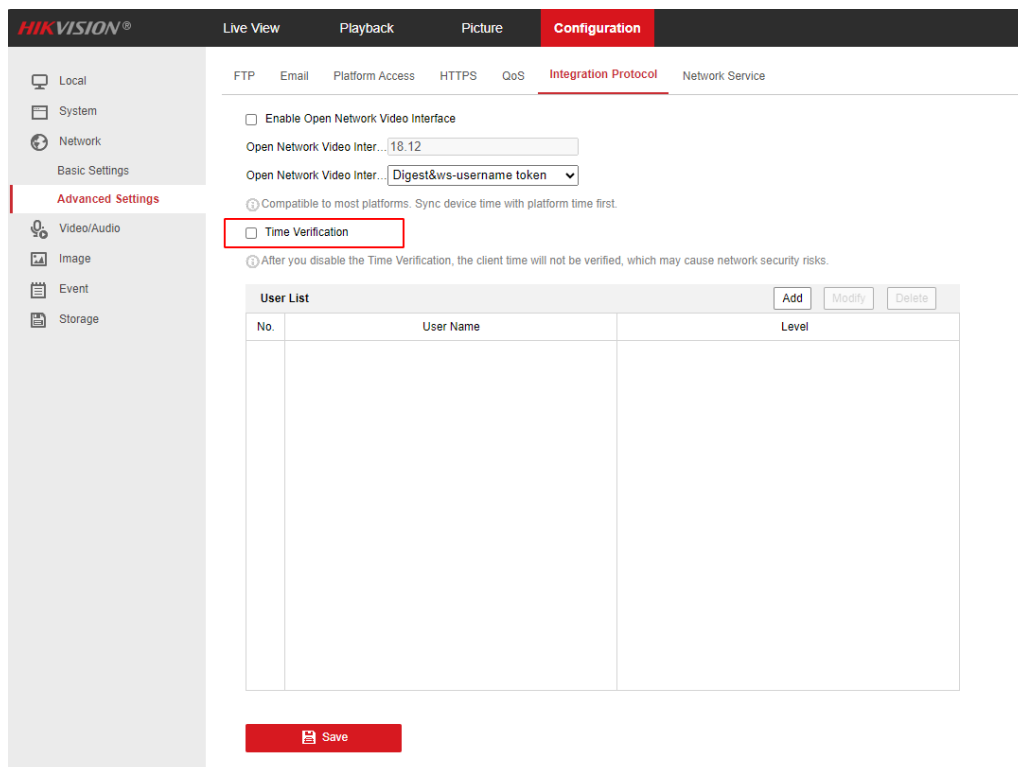

V5.7.21_SP2 build231213

New Features

1. Fix the problem of long startup time.

Modify Function

1. Add a "Time Verification" switch in the ONVIF configuration page.
 - (1) Support the "Time Verification" switch when the authentication method is "Digest&ws username token", and default off.
 - (2) There will be a prompt saying "After you disable the Time Verification, the client time will not be verified, which may cause network security risks." when the switch is off.
 - (3) Support this parameter import and export.
 - (4) Restore and default will make the switch default status.
 - (5) If the camera doesn't have RTC, this switch won't be displayed and time verification is default off.

Customer Impact and Recommended Action

This update refers to function/compatibility improvement and will take effect automatically after

the Date of Change. We are very sorry for any inconvenience of use-habit changes caused by this action.

For any questions and request for this firmware, please contact our local technical support team.

Remarks:

- Hikvision reserves the right to change, alter or withdraw the above notification without prior notice.
- Product design and specifications are subject to change without prior notice.
- The Hikvision firmware may contain errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.
- Hikvision is not liable for any typing or printing errors.
